

Thank You for Making a Difference

The TCMH Healthcare Foundation mission is to ensure the quality of healthcare services for children, women and men at Texas County Memorial Hospital. The Healthcare Foundation develops relationships and financial resources to support the healthcare programs, projects and services of the hospital. Funding comes from grateful patients and their families, community members and groups, as well as businesses and foundations that value healthcare in our area.

Ways to Give

The Foundation welcomes gifts of various kinds: cash, securities, real estate, life insurance, personal property, bequests, charitable and deferred gift annuities, charitable remainder trusts and retained life estates.

The Foundation will be happy to assist you in exploring you giving options. Please contact us for more information.

Honor
that special
caregiver who's
been your

Guardian Angel

Touching Lives Daily

Guardian angels appear in our lives at just the right moment, with a kind word, gentle touch or a caring concern that goes above and beyond our expectations.

They may never ask for anything in return, and yet, we often want to express our gratitude in a meaningful way.

The Guardian Angel Program enables patients and families to recognize a special caregiver who they believe made a difference during their visit or stay at the hospital or medical clinic.

When you make a gift honoring your special caregiver, the Guardian Angel will receive a letter announcing that a gift has been made in his or her honor and will be presented with a custom-crafted lapel pin to proudly wear.

Above is a sample of the Guardian Angel lapel pin that your special caregiver will receive.
